Brushcutter/Clearing Saw

Series 4128

Professional Use

Get to the root of your big jobs with the FS 450 K—made for professional forest clearing and thinning applications. With more power and the same features as the FS 350, this operator-friendly STIHL brushcutter and clearing saw lets you quickly cut through thick undergrowth, saplings and other ground level debris with ease. A high power-to-weight ratio and a rugged anti-vibration design help ensure extra operator comfort.

Standard Features

- Rugged design
- Vertical pleated air filter
- Four-point anti-vibration system with easily adjusted, soft-grip bike handle
- ElastoStart™ starter handle, flow-through primer and decompression valve
- High power-to-weight ratio
- Comfort shoulder harness with multi-position harness bracket
- Easy-adjust handle bar swivels for easy transport and storage

*Weight without cutting attachment or deflector.

NOTE: Technique and blade type influence stem diameter that can be cut.

IMPORTANT INFORMATION

WARNING! Improper use of any trimmer/brushcutter can cause serious or fatal injury. Read, understand and follow all safety instructions in your instruction manual. To reduce the risk of injury from blade contact, circular saw blades may be used on FS brushcutters that have a limitstop, a bicycle handle and double shoulder harness and not on FS brushcutters with a "J" handle or loop handle. Other rigid blades may be used on FS brushcutters having a bicycle handle, a "J" handle or a loop handle equipped with a barrier bar. To reduce the risk of eye injury always wear proper eye protection. Always use the appropriate deflector for the type of cutting attachment, as explained in your instruction manual.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

STIHL products sold through U.S. STIHL dealers are for distribution in the United States only.
