Series 1123

Occasional Use

A step up from the MS 230, the MS 250 is light enough to move through smaller tasks like clearing or cleanup but packs a powerful enough punch to cut through small limbs and trees. A combination of features and a high power-to-weight ratio makes this one of the best homeowner chain saws on the market.

Standard Features

- Toolless fuel and oil caps with retainers
- Carburetor preheat shutter for summer/winter operation
- Side-access chain tensioner

Optional Feature

- Toolless Quick Chain Adjuster (QCA) for fast and easy chain adjustment (**B**)

STIHL recommends #3634 (26 RMC3 62) OILOMATIC® saw chain and 16" 3005 000 4713 Ematic™ guide bar combination.	

IMPORTANT INFORMATION

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual carefully before using your saw. STIHL uses a green and yellow color-coding system to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B175.1 (gasoline-powered saws) and §30 of UL 1662/ ANSI Standard B175.1 (electric chain saws). Ask your STIHL dealer about safe operating procedures and the advantages of the STIHL Quickstop® chain brake, STIHL second chain braking system (Q), STIHL reduced kickback bars and STIHL low-kickback saw chains.

STIHL recommends the use of green reduced kickback bars and green low kickback chains on all STIHL chain saws.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

STIHL products sold through U.S. STIHL dealers are for distribution in the United States only.
