### Series 1121

#### Professional Use

This chain saw takes design to the next step. Lightweight and rugged, the MS 260 Pro is an upgraded version of the MS 260 with all the same quality features for an entry-level arborist. An added decompression valve for easier starts, and an adjustable automatic bar and chain oiler for firewood cutting is what puts the "pro" in this professional chain saw.

#### Standard Features

- Decompression valve
- Adjustable automatic bar and chain oiler
- IntelliCarb™ compensating carburetor
- Side-access chain tensioner
- Toolless fuel and oil caps with retainers
- Carburetor preheat shutter for summer/winter operation
- Available as .325" or 3/8" version

#### Optional Feature

- ElastoStart™ starter handle

STIHL recommends #3634 (26 RMC3 67) OILOMATIC® saw chain and 16" 3003 008 6813 Ematic™ guide bar combination.	

#### IMPORTANT INFORMATION

**WARNING!** The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual carefully before using your saw. STIHL uses a green and yellow color-coding system to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B175.1 (gasoline-powered saws) and §30 of UL 1662/ ANSI Standard B175.1 (electric chain saws). Ask your STIHL dealer about safe operating procedures and the advantages of the STIHL Quickstop® chain brake, STIHL second chain braking system (Q), STIHL reduced kickback bars and STIHL low-kickback saw chains.

STIHL recommends the use of green reduced kickback bars and green low kickback chains on all STIHL chain saws.

**WARNING!** Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

**STIHL products sold through U.S. STIHL dealers are for distribution in the United States only.**
