Series 1133

Mid-Range Use

A "must have"—this mid-range chain saw works hard in the woodpile and is designed specifically for cutting firewood around the farm, ranch or in the woods. With a high power-to-weight ratio, the MS 270 STIHL WOOD BOSS® has a long slim body, making it comfortable for larger users. For use with a 16 to 20 inch bar, its sleek design and advanced anti-vibration system make it an all around excellent mid-range chain saw.

Standard Features

- Advanced anti-vibration system
- Toolless fuel and oil caps with retainers
- Carburetor preheat shutter for summer/winter operation
- IntelliCarb™ compensating carburetor
- MS 270 is 1.3 lbs. less than the MS 290

IMPORTANT INFORMATION

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual carefully before using your saw. STIHL uses a green and yellow color-coding system to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B175.1 (gasoline-powered saws) and §30 of UL 1662/ ANSI Standard B175.1 (electric chain saws). Ask your STIHL dealer about safe operating procedures and the advantages of the STIHL Quickstop® chain brake, STIHL second chain braking system (Q), STIHL reduced kickback bars and STIHL low-kickback saw chains.

STIHL recommends the use of green reduced kickback bars and green low kickback chains on all STIHL chain saws.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

STIHL products sold through U.S. STIHL dealers are for distribution in the United States only.
