Series 1135

Professional Use

Professionals will appreciate this chain saw for its innovative features and completely redesigned anti-vibration system. Leading the industry with the best power-to-weight ratio in its class, the MS 361 has no problem with even the biggest cutting tasks thanks to its high-tech engine technology. Designed with increased durability to help reduce fatigue, you'll have everything you need to make the cut with this powerhouse.

Standard Features

- Advanced anti-vibration system
- Increased filter servicing intervals
- IntelliCarb™ compensating carburetor
- Decompression valve
- Side-access chain tensioner
- Toolless fuel and oil caps with retainers
- New carburetor preheating system

STIHL recommends #3624 (33 RSC3 72) OILOMATIC® saw chain and 20" 3003 008 8921 Ematic™ guide bar combination.	

IMPORTANT INFORMATION

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual carefully before using your saw. STIHL uses a green and yellow color-coding system to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B175.1 (gasoline-powered saws) and §30 of UL 1662/ ANSI Standard B175.1 (electric chain saws). Ask your STIHL dealer about safe operating procedures and the advantages of the STIHL Quickstop® chain brake, STIHL second chain braking system (Q), STIHL reduced kickback bars and STIHL low-kickback saw chains.

STIHL recommends the use of green reduced kickback bars and green low kickback chains on all STIHL chain saws.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

STIHL products sold through U.S. STIHL dealers are for distribution in the United States only.
