Series 1127

Mid-Range Use

The MS 390 is not for the faint hearted. With even more engine power than the MS 310, this chain saw commands your attention. Most popular for farming or firewood cutting, it is our top model of mid-range saws. Capable of cutting through large logs and flushing stumps, it's also fitted with a decompression valve for easier starting and a combination of performance features that make each job go a little faster.

Standard Features

- Decompression valve
- Toolless fuel and oil caps with retainers
- IntelliCarb™ compensating carburetor
- Adjustable automatic bar and chain oiler
- Side-access chain tensioner
- Carburetor preheat shutter for summer/winter operation

STIHL recommends #3624 (33 RSC3 72) OILOMATIC® saw chain and 20" 3003 008 8921 Ematic™ guide bar combination.

IMPORTANT INFORMATION

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual carefully before using your saw. STIHL uses a green and yellow color-coding system to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B175.1 (gasoline-powered saws) and §30 of UL 1662/ ANSI Standard B175.1 (electric chain saws). Ask your STIHL dealer about safe operating procedures and the advantages of the STIHL Quickstop® chain brake, STIHL second chain braking system (Q), STIHL reduced kickback bars and STIHL low-kickback saw chains.

STIHL recommends the use of green reduced kickback bars and green low kickback chains on all STIHL chain saws.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

STIHL products sold through U.S. STIHL dealers are for distribution in the United States only.
