STIHL Magnum™

Series 1138

Professional Use

With a new edge in chain saw technology, the MS 441 Magnum™ boasts an advanced pre-filtration system, noticeably reduced vibrations and a higher torque level over a wide RPM range. More powerful than the MS 440, this chain saw is also emissions conscious, with 10 to 20 percent less fuel consumption depending on the application

Standard Features

- Advanced engine technology (low fuel consumption and reduced emissions/more power) with 10-20% less fuel consumption depending on the type of application
- Pre-separation air filtration system
- Advanced anti-vibration system
- 10-20% less fuel consumption depending on the type of application
- High torque level over a wide RPM range
- Toolless fuel and oil caps with retainers
- Side-access chain tensioner
- Heavy-duty air filter
- Wrap handle version (R)

IMPORTANT INFORMATION

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual carefully before using your saw. STIHL uses a green and yellow color-coding system to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B175.1 (gasoline-powered saws) and §30 of UL 1662/ ANSI Standard B175.1 (electric chain saws). Ask your STIHL dealer about safe operating procedures and the advantages of the STIHL Quickstop® chain brake, STIHL second chain braking system (Q), STIHL reduced kickback bars and STIHL low-kickback saw chains.

STIHL recommends the use of green reduced kickback bars and green low kickback chains on all STIHL chain saws.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.
