Rugged, yet comfortable, apron-style chaps are treated with water and oil resistant nylon covering multiple layers of Engtex® sewn-in, cut-retardant material. Garments are easy to buckle on and can be adjusted to fit a variety of sizes. Cargo pocket on front. Waist size expands from 30" to 42". For Proper fit and protection, the chap length should extend below the calf of the wearer's leg. Larger waists can be accommodated with the waist extender strap (Part No. 0000 886 5901)

STIHL Pro Mark items are "Wash and Wear." They do not require dry cleaning as other brands do.

Where this label appears, these garments have been Classified by UL® (Underwriter Laboratories Inc.) as chain saw cut-retardent leg protection for all operators of Gasoline-Powered Chain Saws by using ASTM (American Society of Testing & Materials) F1414 Test Method and ASTM F1897 performance standard. See complete marking on the product.

IMPORTANT INFORMATION

IMPORTANT INFORMATION!

These protective garments contain pads of cut-retardant material designed to reduce the risk or severity of injury to the body parts covered by the pads in the event of contact with a rotating chain. The fibers in the pads provide extra layers of material and are designed to rip apart if they come into contact with the moving chain and to clog the sprocket and stop the chain in certain circumstances. In some contacts, the pads may stop the chain. In other contacts, the pads will resist the cutting process only for a fraction of a second. The actual degree of protection afforded will vary with the speed of the chain at the time of contact, the power and torque of the saw, the design of the chain saw sprocket and similar factors. Follow the washing instructions. Improper care may destroy cut-retardant properties of the material.

WARNING FOR ELECTRIC CHAIN SAW USERS!

The fibers will not stop the sprocket on most electric chain saws because of their constant high torque.

Important Information All STIHL chain saw protective apparel meets or exceeds OSHA Regulation 1910.266 for Personal Protective Equipment for chain saw operators.

NOTE: Chaps are measured by overall length from the waist down. All chaps have a tough outer shell of oil/water-resistant nylon treated with rain/stain repellent.

WARNING FOR ELECTRIC CHAIN SAW USERS!

The fibers will not stop the sprocket on most electric chain saws because of their constant high torque.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

STIHL products sold through U.S. STIHL dealers are for distribution in the United States only.
