Occasional User

One of a new generation of occasional use saws, the MS 171 STIHL chain saw features reduced-emission engine technology — an advantage for the user because it reduces fuel consumption while reducing exhaust emissions. This innovative chain saw is just right for homeowners who need to cut firewood, fell small trees or do clean up.

Standard Features

- Reduced-emission engine technology
- Pre-separation air filtration system
- Low vibration
- Toolless fuel and oil caps with retainers
- Side-access chain tensioning
- Translucent fuel and oil tanks

Optional Features

- Polymer air filter element
- 7-tooth rim sprocket
- **NEW!** STIHL ROLLOMATIC® E Mini Light Guide Bars 10" (3005 008 7603), 12" (3005 000 7605) and 14" (3005 000 7609) are 30% lighter. For use with PMN and PMMC3 saw chain.

STIHL recommends #3610 (61 PMMC3 50) OILOMATIC® saw chain and 14" 3005 008 3909 PMN ROLLOMATIC® E guide bar combination.	

IMPORTANT INFORMATION

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual carefully before using your saw. STIHL uses a green and yellow color-coding system to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B175.1 (gasoline-powered saws) and §30 of UL 1662/ ANSI Standard B175.1 (electric chain saws). Ask your STIHL dealer about safe operating procedures and the advantages of the STIHL Quickstop® chain brake, STIHL second chain braking system (Q), STIHL reduced kickback bars and STIHL low-kickback saw chains.

STIHL recommends the use of green reduced kickback bars and green low kickback chains on all STIHL chain saws.

WARNING! Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

STIHL products sold through U.S. STIHL dealers are for distribution in the United States only.
